

CASE STUDY:

A Game Changer for Compliance

How one Trust's on a mission to reduce time-consuming tasks with the help of AI.

"Robin is an absolute game-changer and time-saver. It's a product you never knew you needed that saves time, improves accuracy and frees people up to focus on those important tasks."

It's not about removing people, that can be the worry with AI, it's about giving people more time to spend on other things."

Dave Kemp

IT and Data Lead - Thrive Co-operative Learning Trust

Number of schools: **10**

Trust location: **Hull**

Before Robin

- **Manual and Time-Consuming:** Hours spent checking school websites for DfE requirements and policy data.
- **Difficult to Stay Up-to-Date:** Keeping track of changing DfE requirements was a significant challenge.
- **Multiple Steps and Checks:** Policy updates also involved a complex, multi-step manual process.

Why Robin?

- **Easy Access**
- **Friendly Support**
- **Objective and Intelligent**
- **Affordable**
- **Game-Changer**

The Impact

1. **Effortless Compliance Updates:** When the DfE requirements change Robin automatically incorporates them into the next report.
2. **Significant Time Saving:** Robin has freed up staff's time; automated checks mean they now just act on what's missing.
3. **Data-Driven Insights:** CEO & SLT get a clear overview of compliance and key trends across the Trust.
4. **Ofsted Readiness:** Ability to quickly understand how compliant schools are and if policies are up to date.

"Robin not only identifies the missing requirements, but it also highlights similar, existing content on your websites."

"I don't think there's a product like this out there."
