

CASE STUDY:

How E-ACT built governance at scale through a period of rapid growth

Compliance consistency across a fast-growing trust.

"When I first heard about Robin, I remember jumping up and down in my seat saying 'This is amazing! Why has no one done this sooner?'"

Emma Myers
Head of Governance
E-ACT
(37 schools)

Before Robin

- Manual, time-consuming checks split across central services, headteachers and school website leads
- Hard to keep pace with statutory requirements as the trust grew
- No easy way to see trust-wide risk at a glance

Why Robin?

- Real-time, trust-wide oversight instead of one-off manual checks
- Feeds straight into academy risk registers and wider assurance processes
- Clear guidance means schools fix gaps fast

The Impact

1. Real-time oversight across a growing, 37-school trust
2. Schools now check their own audit before governance even asks
3. A proactive, trust-wide culture

"Compliance is a starting point, not an end goal."
